# COMMERCIAL INTELLIGENCE

THURSDAY EVENING, Nov. 17.

WITH no alteration in rates of discount in the London Money market, the usual securities quoted by Reuter are without change, with the one exception of French Rentes, which are ¼ lower at 116¾.

Quotations for metals show an advance of 10s. per ton in Copper, but Yellow Metal Braziers and Spelter are unchanged.

In the General Produce markets prices come as previously quoted. Coffee is given at 83s. for M. P. Ceylon, and Reuter adds that new crop full up sells freely, whilst Grey and other sorts are steady.

Piece-goods in Manchester are reported strong at full prices, but the advance checks business. Private advices increase quotations for Shirtings 1⅛d. per piece all round.

The Liverpool Cotton market yesterday closed firm in tone, the day's sales being estimated at 15,000 bales, of which 2,000 were Surats. Spot prices are unaltered, nor do we hear of any change for arrivals. In New York, however, ready Mid-Uplands are at 11¼ cents, and February shipment at 12·31 cents. per lb. The receipts at the ports give the following comparisons to date:—

| | 1881. | 1880. | 1879. |
|---|---|---|---|
| Wednesday's Receipts ..... | 41,000 | 32,000 | 28,000 |
| Previous days' do. ..... | 143,000 | 1,63,000 | 111,000 |
| Total since 1st Sept. ..... | 1,742,000 | 2,013,000 | 1,825,000 |

The monthly report of the Washington Agricultural Bureau on the Cotton Crop is to hand today, but it is difficult to make anything definite out of it. The Crop is estimated to be much smaller than last year except in Georgia, South Carolina, and Mississipi (three of the largest cotton-growing States), and it also goes on to say that the weather is favourable for October top crop, and that winter prospects are favourable. Taken altogether, we should be inclined to take the report as being in favour of rather a larger yield than current estimates, but the terms used are so vague and general, that it would be absurd attempting to form a definite conclusion on them. The most important feature, to our thinking, is the favourable weather report. An open winter, or the reverse, may easily make a difference, of half-a-million of bales, and it is not at all unlikely, therefore, that we may see the receipts begin to grow just when they exhibited a decided falling off last season.

At the biddings for Council drafts in London yesterday the minimum was fixed at 1s. 7⅞d., as was generally anticipated. Few people, however, we think, were prepared for the further increase in the weekly amount of the bills to 45 lakhs. This, in conjunction with the large shipments of bullion advised for this port, £60,000 in silver and £80,000 in gold, has exercised a quietening effect on STERLING EXCHANGE, and rates may be called partially 1-32d. lower. From Calcutta advices also come the turn weaker, and it would be no matter for surprise if we had weaker markets for a time. In the long run, however, the active export trade we have in prospect must begin to tell, and any important decline just now would, we think, be followed by an equally rapid recovery later on. Closing quotations are :—

| | | |
|---|---|---|
| Bank Bills on demand ..... | 1s. 7 15-16d. | per Rs. |
| Do. telegraphic ..... | 1s. 7 29-32d. | ,, |
| Do. 3 months' sight .... | 1s. 8d. | ,, |
| Credits, 3 ,, ,, .... | 1s. 8 1-32d. | ,, |
| Documents, 3 ,, ,, .... | 1s. 8d. | ,, |
| France 3 ,, ,, .... | 2f. 13½ to 14c. | ,, |

On Calcutta the demand rate has receded to ¼ premium, and 60 days' sight to ⅜ per cent. discount.

GOVERNMENT PAPER to-day has been quiet, but fairly steady. Fours at one time touched Rs. 101 9-16, but at the close sellers ask Rs. 101½, and for Fours-and-a-half Rs. 110½.

SHARES are quiet and decidedly wanting in activity. In Banks there is no change. Colaba Land shares are Rs. 5 lower at Rs. 830. Press Companies continue firm, and there is an advance of Rs. 2½ in Mofussils, Rs. 25 in Fort, and Rs. 30 in Prince of Wales. Spinning and Weaving Mill Companies show a general decline of Rs. 5 per share except in the case of Dhurrumseys, which are Rs. 15, and Jewraz Balloo, which are Rs. 5, higher. Bombay Saw Mills have declined Rs. 30, Treacher and Co., Rs. 10.

COTTON to-day has been firm, with a fair inquiry, which has not, however, developed into much business, owing to the disparity existing between buyers' and sellers' ideas. Purchases of ready Old Omras are reported to the extent of about 750 bales in all, as high as Rs. 187 having been paid for barely good. Some transactions have also taken place in Broach at Rs. 230 for March delivery.

SEEDS and WHEAT show no quotable change.

FREIGHTS are, if anything, the turn steadier, 38s. 9d. to 40s. being asked for ready shipment for Liverpool. There is little or no demand, however, on the part of charterers, nor is there any scarcity of tonnage in prospect, the active demand prevailing for Coals at Port Said enabling steamers to come out on fairly advantageous terms.

PIECE-GOODS are dull in the extreme. Dealers find supplies steadily pouring in on them, with nothing like a proportionate off-take for up-country, and they are therefore much more concerned at the moment about selling than buying.

COALS are quiet at previous prices.

## THE VICEROY'S TOUR.

(FROM OUR SPECIAL CORRESPONDENT.)

JEYPORE, Nov. 17.

The Viceroy received the Maharaja at the Residency this morning in private durbar.

H. E. returned the visit at half-past four in the durbar-hall of the Palace, where a brilliant and picturesque assemblage of Rajput chiefs were seated. The Maharaja met the Viceroy at the entrance, and conducted him to a chair on his right hand. The two chairs occupied by Lord Ripon and his Highness were of massive gold and silver, and were placed on a silver throne resting on a pedestal of silver inlaid with gold, and overhung by a magnificent canopy supported by slender silver pillars inlaid with gold. After a short conversation about two dozen of the principal Thakoors were introduced to the Viceroy, who, as is customary on such occasions, touched and remitted their nuzzurs. Salutes were fired on the arrival and departure of the Viceroy. The streets were crowded with spectators.

On the way back the Viceroy visited the Museum and Public Gardens.

The Viceroy and a small party went shooting early this morning, but were not very successful, though game abounds. A pig-sticking party, made up of Lord William Beresford, Captain Muir, and Messrs. Ravenshaw and Miles, got two good runs, the first pig falling to Mr. Ravenshaw, and the second to Lord William Beresford.

The Viceroy and party visit Amber, the ancient city of Jeypore, to-morrow.

Lady Ripon arrived this morning.

At a banquet at the Palace to-night the Maharaja, through Colonel Walter, proposed the toast of the Queen. His Highness next proposed the health of the Viceroy and Lady Ripon. He expressed his pleasure at receiving them at Jeypore, and hoped their Excellencies were pleased with their visit, and that they would carry away with them pleasant reminiscences, and pay him a visit again on a future occasion.

The Viceroy replied as follows:—Ladies and gentlemen,—I am most grateful to his Highness for having asked Colonel Walter to propose my health and that of Lady Ripon on this occasion, and am still more grateful to the Maharaja for the splendid hospitality with which he has been good enough to entertain us. I can assure you I have derived—and I think I may say without hesitation that Lady Ripon has also derived—the very greatest satisfaction and enjoyment from our visit to this beautiful city. I have seen since I came to India many beautiful, many interesting and striking cities, but I can say most truly that nothing I have witnessed has surpassed that which I have seen since I came to the city of Jeypore. I have been immensely struck by all that has come under my notice since my arrival here yesterday, and in no respect have I been more struck than by the spirit of noble and princely hospitality which has marked the reception given on this occasion by his Highness the Maharaja. You, Colonel Walter, have been good enough to express on his Highness's behalf the hope that it may possibly be in our power to visit this city and State again. It is impossible for me to give any promise on that subject now. All I can say is that if it should be my good fortune during my stay in this country to be able to come once more to Jeypore, the reception I have met on this occasion will certainly make me very desirous of doing so. Now, ladies and gentlemen, before I sit down I have to discharge the pleasant task of proposing to you a toast which I am sure all those assembled in this hall to-night will drink with the utmost satisfaction, and that is, the health of his Highness the Maharaja. (Cheers.) We, his guests, owe him many thanks for the manner in which he has entertained us on this occasion; but, ladies and gentlemen, I must be permitted to take another view of the toast which I am now proposing. My earnest hope, as one charged with a great responsibility and connected with the Government of this vast country, is that his Highness may, through God's blessing, have a long, prosperous, and happy reign; that he may walk in the footsteps of that distinguished prince whose successor he is; that he may confer upon the people of his State benefits such as those which the late Maharaja conferred upon them; and that in the course of his reign, which, as I have said, I trust may be prolonged, he will devote himself zealously and earnestly to promote to the utmost of his power the welfare of the numerous people entrusted to his care. (Cheers.)

A brilliant display of fireworks in the Palace gardens concluded the evening.

There were two deaths from cholera in Bombay last week, as compared to an average of five for the corresponding weeks of the last five years. In the Presidency generally, we are glad to see, the decrease in the number of deaths from this disease continues. There were only 14 deaths in the Satara district last week, 14 in Belgaum, 4 in Ahmednagar, and 1 in Kaladgi, while from Nasik it is reported that "cholera is abating." We are sorry to see that while it is gradually dying out everywhere else, the disease appears to be spreading in some parts of Kathiawar. In the Rajkote district there is "cholera at Gondal, Morvi, and Jetpur" (no figures given), and in the Wadhwan district, at Limdi, where there were 4 cases and 3 deaths.

In consequence of Mr. T. C. Hope, C.S.I., having been confirmed in his appointment of Secretary to the Government of India in the Department of Finance and Commerce, his Excellency the Governor in Council has been pleased to make the following appointments, with effect from the 27th August, 1881:—Mr. A. T. Crawford is confirmed as Commissioner, first grade. Mr. C. B. Pritchard, Commissioner, second grade, is appointed substantive *pro tem.* Commissioner, first grade, *vice* Mr. H. N. B. Erskine, substantive *pro tem.* Commissioner in Sind. Mr. G. F. Sheppard to be substantive *pro tem.* Commissioner, second grade, *vice* Mr. C. B. Pritchard.

We are requested to remind our readers that admission to the choral festival which takes place on Tuesday next, the 22nd inst., is by book only (in lieu of ticket), to be obtained at the Cathedral vestry. Only a certain number of books have been printed, and those anxious to secure seats should apply early.

Noticing the Bombay Government's notification about the adoption of Madras time, the *Indian Daily News* remarks:—"Really, Sir James Fergusson is eccentric!"

The Fisher scandal prosecution is fixed for the 21st inst., in the High Court of the North-West Provinces, at Allahabad.

The Nawab of Rampur has subscribed Rs. 2,000 to the Northbrook Institute. Baboo Dwarkanath Roy, zemindar of Santosh, has subscribed Rs. 300 towards the same object.

The hired transport steamer Calabria left Natal on the 15th instant, with the 1st division of the 14th Hussars; and the 2nd division of the same regiment is to follow in the Hankow for Bombay. The regiment on arrival here will be despatched by special trains to Secunderabad.

A Calcutta paper understands that something like 4,000 bronze stars have been received by the Military Department, and will shortly be distributed to the regiments which formed the force which marched under Sir F. Roberts from Kabul to the relief of Kandahar. A further supply is expected shortly, as also a supply of the Kabul campaign medals.

With reference to the prize shooting at Lanowli for the G. I. P. Railway Volunteers, a correspondent writes:—"The shooting began on Tuesday, the 15th, at 7 a.m., and notwithstanding a strong wind prevailing at the time, some good shooting was done at the short ranges by the Lanowli and Bombay men. In the afternoon the shooting was resumed for the challenge cup, and resulted in a victory for the Lanowli team with 221 points, beating the Igatpuri team by 2 points. On the following day the shooting was not good, as the weather was unfavourable. It is believed that the Lanowli Volunteers have done the best on the whole; but the fact that they fired on their own range gave them an advantage."

Mr. Lockwood de Forest of New York, who accompanied M. de Ujfalvy in his trip to Skardo through Baltistan, will, the *Pioneer* says, exhibit some forty of his oil sketches at the forthcoming Punjab Exhibition at Lahore. Although these works were rapidly executed, they give an excellent idea of the gaunt barrenness of these lofty mountain ranges, their strange, tawny colour, and the scanty strips of vegetation along the mountain torrents diverted for irrigation. Half a dozen of Mr. de Forest's sketches in Kashmere were exhibited at Simla, where their fidelity and their breadth and facility of handling attracted the attention of amateurs.

Quoting our article on municipal self-government under the "Bombay Town Municipalities Act," the *Indian Daily News* adds:—Before the Government can talk of extending self-government in India, it must be prepared to say to what extent a reasonable opposition shall be considered necessary, and to what extent a majority of the commissioners of any municipality shall be free from the possibility of being treated by the executive in a worse fashion than Mr. Justice Kernan treated the Madras jury. If municipalities are to be what they can be in India, a source of benefit to the people, and a source of relief to the Government, the Government must first of all eliminate from Municipal Acts the fatal element of sham.

There has been bad weather at Colombo, as well as at Madras. A telegram to the *Madras Mail*, dated Nov. 14, states:—"Heavy rain fell on Wednesday, Thursday, and Friday. Over twelve inches fell during Friday night. On Saturday there was a strong wind, and the waves rose sixty feet high, over the breakwater. No damage has been done to machinery or material. The gale has entirely subsided now." There are material differences in the design and construction of the breakwaters at Colombo and Madras, respectively. In Sir John Coode's breakwater at Colombo each block is set or bonded nearly one-half its length over that of its neighbour, either over or under, turn about; and in addition to this vertical bond there are five joggle holes running from top to bottom of the wall. These holes are cut out of the back and front of each block in the yard, are 18 inches by 6 deep, but when set in the wall and coming together pair by pair they form a hole 18 by 12, into which bags of a strong mixture of concrete are dropped, and rammed home by a wooden rammer. Further, Sir John Coode's wall is 34 feet thick, and Mr. Parkes's only 24 feet. The Coode blocks weigh from 18 tons to 30 tons, and the Madras blocks are all 27 tons. Sir John Coode rivets his blocks together, but Mr. Parkes merely places his one on the top of the other, or builds them up, without any cement or connection, into a wall that is 24 feet square, and rests on the precarious foundation of a loose rubble base also 24 feet high. Mr. Parkes believed that the weight and pressure of the blocks would keep them in position, and the desolation which now marks the site of his eastern piers is the result of his miscalculation of the force of the sea.

The inconvenience and even hardship—for a detention of a week or ten days out of three months' leave to England is decidedly a hardship—to passengers between India and England occasioned by the Egyptian and Italian authorities' absurd quarantine regulations is well illustrated by the following extract from a letter received in Calcutta from a gentleman who left that city on the 17th September for Bombay, and thence home with a three months' P. and O. ticket:—"I only reached Cannon-street this morning (Oct. 21) at 6 o'clock, thanks to our quarantine experiences, and dropped you a line from Suez, so that you already know that up to that point things had gone fairly well with us. But then our troubles commenced. We found on arriving that 24 hours' quarantine was imposed on all vessels from Aden or from any Indian port. But to accomplish this it was necessary to sojourn for that period at Moses' Wells, a spot I daresay you are acquainted with, and the P. & O. Agent had made no arrangements to enable us to proceed there. We hoped that some arrangement might have been made by which we could have worked out the 24 hours' quarantine, and still have been in time for the mails leaving Alexandria on the Tuesday. In this we were disappointed. The mails were despatched to Alexandria immediately, and we were kept at Suez to dance attendance on the Kaiser-i-Hind, and the handsome offer was made to proceed to the Kaiser-i-Hind to Southampton, so as to avoid waiting for the mail of the followingweek. But this would have effected no saving in time, and accordingly most of us elected to stick to the Malwa, which was to go on to Alexandria and take on the mails of the following week to Brindisi. Nobody could definitely tell us whether we should be subjected to further quarantine at Alexandria or Brindisi. The passengers who did elect to go in the Kaiser-i-Hind returned to us immediately, five minutes' inspection having satisfied them that the Kaiser-i-Hind accommodation was infinitely ferior to ours. We had the pleasing satisfaction of experiencing three days' detention in the canal in consequence of a steamer ahead having grounded; and when we reached Alexandria we were not allowed to land. We left with the mails on the Tuesday, and reached Brindisi on Saturday morning' and found ourselves hard fixed for three days' quarantine. That took us up to Tuesday, October 18th. We left by special train (Pullman and Lethan cars) at 3 p.m., reached Paris on Thursday, went on to Calais at once, after a not very stormy passage across (the channel at least as was told us by the effects on me was much the same as if a gale of the concentrated fury of ten had been raging—we arrived at Cannon-street at 6 this morning. I'm waiting here for my luggage; it seems that the registered baggage was detained at Paris."

A court-martial was held on board H.M.S. Encounter at Yokohama on the 27th September—consisting of Captain Tracy (Iron Duke), President, Captain Robinson (Encounter), Captain Long (Curaçoa), Commander Errington (Albatross), and Commander Day (Pegasus), Mr. J. A. Perry, Admiral's secretary, acting as Judge Advocate—to try Mr. W. H. Patterson, Staff Assistant Surgeon, R.N., of H.M.S. Comus, and formerly of H.M.S. Iron Duke, who was charged by Captain East, and by order of Vice-Admiral G. O. Willes, C.B., with conduct unbecoming an officer and gentleman in drinking intoxicating liquors to such an extent as to produce *delirium tremens*. The accused denied the charge, and after a lengthened investigation, which was continued the following day, the court found "that the charge had not been fully proven, but that the prisoner had been guilty of an injudicious use of intoxicating liquors when in a weak state of health. The prisoner would forfeit two years' seniority, and be dismissed from his ship.

A proposal to establish a Yacht Club at Singapore has been mooted for some time back, and a meeting of residents interested was to be held on the 31st October for the purpose of considering the project.

A proclamation has been posted in Hankow, emanating from the Hsien-fu and the Customs Tao-tai, which forbids all sales of Manila lottery tickets by Chinese. The magistrates are very severe upon those who take in the simple people and trade upon their anxiety for "unexpected gains," and anybody who pursues this illicit traffic after the 1st of the 9th moon will be held as guilty as the keeper of a gambling-shop.

A Shanghai paper states that Li Hung-Chang has lately presented a very remarkable memorial to the Emperor, which will, we hope, soon be published in the *Peking Gazette*. He proposes to sanction the establishment at Hongkong of an opium monopoly. It is to be in the hands of a company with a capital of $20,000,000, which shall purchase all the opium exported to China from India, or as much of it as China may be able to consume, and then re-export it from Hongkong to other ports and places of consumption. The ostensible reason alleged by the Viceroy for this proposal is two-fold. In the first place, he says it would prove an economical measure, by enabling the Government to abolish the large number of *lekin* stations now existing all over the Empire; and secondly, it would put a stop to the evasion and misappropriation of *lekin* dues which now prevails, and the large amount of smuggling that goes on.

At the last meeting of the Straits Legislative Council the Hongkong and Shanghai Bank Bill was read a second time. The Bill is simply the usual enactment enabling the Corporation to establish branches and to issue banknotes in the Colony; but one of the unofficial members, the Hon'ble J. Graham, while not opposing the second reading of the Bill, advocated the doing away with what he characterised as absurdities in the Bill, and allowing free banking. The first of these absurdities, the Hon'ble member said, was the obliging the bank to keep a fixed minimum reserve against the notes issued. As the public had unlimited liability against shareholders for the notes, this reserve was absurd and needless, in Mr. Graham's opinion. The other absurdity was Government supervision, which, the Hon'ble member said, was to a great extent unreal, useless, misleading, and therefore mischievous. The Hon'ble F. C. Bishop opposed Mr. Graham's views as fallacious, and instanced the example of the Bank of England, whose reserves never fell below two-thirds of its resources, and which always held coin to the amount of one-third of its note issue. The Attorney-General briefly explained that the provisions objected to were not new, but were in force in other communities, and were as necessary here as elsewhere; and the Bill was read a second time without opposition.

There are members of the London School Board, it appears, who shirk their duties almost as much as some members of the Bombay Municipal Corporation. A speaker at a recent meeting was called to order, the chairman ruling that to designate a member as "a sham" was unparliamentary. The gentleman who had used the term extricated himself, however, from the difficulty rather dexterously. "If, Sir," he said, "a gentleman coming here only once a month, and remaining only five minutes, does not constitute a sham, I will withdraw the expression.

Says *Truth*:—"Mr. (Sir) Lepel Griffin's letter to the *Times* of last week clearly exposes the romantic character of the 'Personal Records of the Kandahar Campaign,' by Major Waller Ashe. Mr. Griffin suggests that as the first volume is dedicated to Lord Lytton, the second should, when it appears, be dedicated to the Father of Lies. Would not, under the circumstances, a dedication to Lord Salisbury be equally appropriate?"

Sir Thomas Gladstone, brother of the Premier, at a Kincardineshire Conservative meeting on October 27 blamed the Government for indifference to Ireland, and said if proper measures had been adopted recent horrors would have been prevented.

The curates are forming a Trade Union, and *Truth* thinks it is full time that they should. The present distribution of the Ecclesiastical revenues is a scandal to the Church of England. The curates ought to insist upon "fair" payment and fixity of tenure. As it is, a curate is entirely dependent for his wretched stipend on the good pleasure of the incumbent.

The National Debt of the United States, which in 1866 stood at 2,773,236,172 dols. was reduced to 1,816,339,507 dols. on the 1st of September last. If the same rate of repayment should be maintained, the debt would be completely extinguished in less than 30 years from the present time. The excess of revenue over expenditure has been hitherto from 120,000,000 to 200,000,000 dols.

A Parliamentary return of the number of hours during which the House of Commons has sat after midnight in each of the ten years since the half-past twelve rule (which precludes the discussion of Bills to which there is any opposition after that hour) has been in force, and in each of the ten years before the adoption of the rule, shows that since its adoption members have transacted business during 1463 hours 20 minutes, while previous to it the total was only 996 hours.

A tale of almost unequalled self-sacrifice comes from the Transvaal. Dr. Landon, of the Army Medical Department, was wounded at the Majuba Mountain on the day when Sir George Colley was killed. The bullet struck his spine, and paralysed his lower limbs. Knowing he must die, he called to the orderlies near him, and caused himself to be propped up against a boulder. There, in the very presence of death, he with his own hand forced the morphia solution into the wounded arm of Corporal Farmer, and thus, frightfully wounded and suffering most acutely, he died. The story of this gallant devotion is vouched for by the best authority.

The "coming of age" of the Worcester Volunteer Force was celebrated on October 27 by a grand field day, a sham fight, and a dinner, the inhabitants having raised a liberal subscription for that purpose. The review and sham fight took place on the racecourse, and was witnessed by some 10,000 spectators, the weather being fine, though cold. The officer in command was Lieut.-Colonel Vernon, Colonel Stallard commanding the Artillery Volunteers, and Captain [illegible] Isaac the Worcester Troop of Yeomanry Cavalry.

In consequence of the agreement come to by Prussia and England in 1840 to appoint an Episcopal Bishop of Jerusalem each in turn, it now devolves on the Cabinet of Berlin to make the appointment, the see being vacant through the death of Bishop Barclay. The clergyman selected must, however, be in Anglican orders, and must receive Anglican consecration. The presence of an English bishop in the Holy City is doubtless of no small benefit to the Christian residents generally, but the object which Bunsen and King Frederick William had mainly in view—the union with the Church of England of the Evangelical Church of Prussia—appears to be as far off as ever.

## PAYMENT OF FEES TO EDUCATIONAL OFFICERS.

TO THE EDITOR OF THE "BOMBAY GAZETTE."

SIR,—After waiting in the vain hope that some of our public-spirited citizens would move our Government, as they did in the case of the influential Dr. Cook, to reconsider its recent Resolution about private tuition by Government school-masters, I now earnestly exhort them to espouse the cause of this ill-paid but hard-worked class of public servants. It is well known that Government servants are strictly prohibited from submitting memorials jointly. Individual memorials are of course allowed, but they are not much attended to. It therefore now behoves the public of Bombay to come to the fore, and, as the local and, if need be, the Supreme Government so to modify the late Resolution as to make it less severe and less crushing in its effect.

## COOK'S INDIAN TOURS.

We have received the programme of Cook's Indian Tours, which embrace every point of interest for tourists and general travellers in this country. The book gives the chief routes by railways, steamers, dak gharries, ponies, palkees, &c., and short descriptions of some of the principal places. In his introductory remarks to the pamplet Messrs. Cook point out to intending tourists that the annoyance and fatigue naturally arising from long railway journeys "have been very considerably alleviated by the excellent arrangements of the various railway companies concerned. We have never travelled in any part of the globe where the carriages are better constructed for the peculiar requirements than those are in India, and we say without hesitation that there is no station accomodation on any railway in the globe that will compare with the station accommodation on many of the Indian railways." Messrs. Cook say that although for some years past tourists have been booked to all the four corners of the globe, and travellers have in their routes round the world traversed rapidly the principal points of interest on the main lines of railway in India, no special arrangements have hitherto been made for opening out the entire country to tourists, and for affording facilities to the natives of India for visiting European countries. They have therefore occupied themselves in organising arrangements, and hoping that they will spared neither labour nor expense, in the hope that their efforts will be duly appreciated by the public, and that the varied programmes they are now presenting will be acceptable to the general tourist, who, having exhausted all beaten tracks, is in search of new fields of fresh interest. The several routes embraced in the itineraries have been drawn up after much consideration and investigation, and as the railway negotiations have been made under the special auspices of the Government of India, and have received the sanction and ratification of the different railway authorities concerned, implicit confidence may be placed in the facilities now afforded. The tourist to India has facilities now, never before afforded, for prosecuting a most deligetful trip during the coming winter—the cold season in India, reported to be at its height at the end of March, being the most enjoyable time of year in the plains, and that between April and October the most agreeable in the Hills. Nearly all the routes shown *separately* in the programme can be abridged or enlarged, or taken in combination with others to suit the wishes of all intending travellers. The tickets, being circular, can be used from any point, of the circuit according to the direction from which the traveller approaches India. If from England direct, then Bombay, say Messrs. Cook, would be the best starting point. If from Australia, China or Japan, then Ceylon and the South of India. If from the Cape of Good Hope, or the Mauritius, or Burmah, or America, then Ceylon, or Calcutta, according to the line of steamers selected for reaching India. Amongst the endless variety of objects of interest which will probably attract visitors in a tour through India, will be not only the wonderful ancient rock temples and shrines and buildings of historic interest, but also the following, or at all events some of them: the sapphire and indigo factories, coffee and tea plantations, cotton and silk industries, brass and iron manufactures, gold fields and auriferous alluvial deposits; cinchona estates, clays and potteries, saltpetre mines, borax and hemp, and jute and oil-seeds; coal-fields, lac dye and shellac, and rose-water factories; shawls and pushmina, and Rampore chuddurs; Dacca muslins, carpets, towels and numdahs; jail manufacture, and tents of Futtehgurh and of jail make; the Shahjehanpore and Kossipore sugar refineries and rum distilleries; native sugar and oil presses, the salt mines and salt lakes, Benares toys, the Goofikooree work of gold-thread beaten into steel, the carved and inlaid ivory work, ebony and sandal wood, and other carved woods of sorts; the silver and gold work of Delhi and Lucknow, embroidered cloths and slippers, the kinkob work of Benares; the marble work of Jeypore, the plastic clay figures of Lucknow, the soapstone and flexible porous stone of Agra, and the inland marble ornaments; the brass and other models of deities and idols worshipped in India, and innumerable carts, wells, and animals peculiar to the country, &c., &c. The tourist might also, Messrs. Cook remark, advantageously obtain access to some of the Zenana and other missions of India, also to the jails, hospitals, and libraries, the palatial buildings, tombs, gardens, and residences of former kings and emperors, and the modern abodes of native dignitaries, and some of the high courts, cathedrals, memorial churches, post and telegraph offices; the Cawnpore and Futtehgurh memorial wells of the Mutiny; the public gardens and parks; the botanical and zoological gardens; the town halls and institutes; the irrigation and navigation canals, docks, forts, arsenals, studs, gunrunning agencies, powder and percussion cap and leathern accoutrement manufactories; gun foundries, tobacco and opium, Thuggee test factories, universities, schools of arts, colleges, model farms, railway workshops, viaducts, bridges, &c. Routes facilitating the inspection of most of the above places and industries can be selected from the itineraries of tours; accurate information will also be afforded to travellers having any special requirements in view.

DR. J. COLLIS BROWNE'S CHLORODYNE,

THE ORIGINAL and ONLY GENUINE.

ADVICE TO INVALIDS.—If you wish to obtain quiet, refreshing sleep, free from headache, relief from pain and anguish, to calm and assuage the weary achings of protracted disease, invigorate the nervous media, and regulate the circulating systems of the body, you will provide yourself with the marvellous remedy discovered by Dr. J. Collis Browne (late Army Medical Staff), to which he gave the name of CHLORODYNE, and which is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for Coughs Consumption, Bronchitis, Asthma.

CHLORODYNE acts like a charm in Diarrhœa, and is the only specific in Cholera and Dysentery.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitation, and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Meningitis, &c.

From Symes & Co., Pharmaceutical Chemists, Medical Hall, Simla, January 5, 1880. to J. T. Davenport, Esq., 33, Great Russell Street, Bloomsbury, London. Dear Sir,—We embrace this opportunity of congratulating you upon the wide-spread reputation this justly esteemed medicine Dr. J. Collis Browne's Chlorodyne has earned for itself, not only in Hindostan, but all over the East. As a remedy of general utility, we much question whether a better is imported into the country, and we feel sure that the time of its finding a place in every Anglo-Indian home. The other brands, we are happy to say, are now relegated to the native bazaars, and, judging from their sale, we fancy their sojourn there will be but evanescent. We could multiply instances *ad infinitum* of the extraordinary efficacy of Dr. Collis Browne's Chlorodyne in Diarrhœa and Dysentery Spasms, Cramps, Neuralgia, the Vomiting of Pregnancy, and as a general sedative, that have occurred under our personal observation during many years. In Cholera, Diarrhœa, and even in the more terrible forms of Cholera itself, we have witnessed its surprisingly controlling power. We have never used any other form of this medicine than Collis Browne's from a firm conviction that it is decidedly the best, and also from a sense of duty we owe to the profession and the public, as we are of opinion that the substitution of any other than Collis Browne's is a DELIBERATE BREACH OF FAITH ON THE PART OF THE CHEMIST TO PRESCRIBER AND PATIENT ALIKE. We are, Sir, faithfully yours, Symes & Co., Members of the Pharm. Society of Great Britain, His Excellency the Viceroy's Chemists.

CAUTION.—Vice-Chancellor Sir W. Page Wood stated that Dr. J. Collis Browne was undoubtedly the Inventor of Chlorodyne; that the story of the defendant Freeman was deliberately untrue, which, he regretted to say, had been sworn to.—See "The Times," July 13, 1864.

Sold in bottles at 1s. 1½d., 2s. 9d., 4s. 6d., and 11s. each. None is genuine without the words "Dr. J. Collis Browne's Chlorodyne" on the Government stamp. Overwhelming medical testimony accompanies each bottle.

CAUTION.—Beware of Piracy and Imitations.

Sole Manufacturer—J. T. DAVENPORT, 33, Great Russell Street, Bloomsbury, London.
